

JUBILEE FUEL TANKS

***JST-5000***

5000L  
UNDER MOUNTED SKID TANK

We can design and manufacture fully customised self bunded (double wall) generator base tanks.

Choose from one of our tried and proven existing designs or let us design up a self bunded (double walled) generator base to suit your requirements.

Designed in accordance with a range of standards including AS1940 / AS1692 / UL142 / ULC-S601 / UL2085 / PPG / UN31AY

NFPA 30/37/110 & IFC 2003/2006/2009 Compliant

20ft (6m) 5000L Double Wall Low Profile Generator Base Tank

- Available in Dual Wall or 110% Self Bunded Tank in Tank configuration
- Includes internally reinforced baffle system to allow the tanks to be transported with fuel and to provide a stronger, reinforced structure for housing the generator
- Self Bunded (Double / Dual Wall) Generator Sub-Base Tanks are UL and ULC Listed as Secondary Containment Generator Base Tanks

Jubilee Customised 1000L and 2000L Double Wall Generator Base Tanks
